#### REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Columbia High School is a comprehensive high school located in Richland County School District One. Accredited by the S.C. State Department of Education, the Southern Association of Colleges and Schools and the College Board, the school serves approximately 850 students in grades 9-12.

Our school made significant progress during the 2002-03 school year. The senior class earned \$2.7 million in scholarships; several young men were accepted as delegates to Palmetto Boys State; and two members of the senior class were named as National Achievement finalists. Further, our AFJROTC unit won the Superintendent's Trophy for the third consecutive year. Both AFJROTC instructors received the "Outstanding Instructor's Award" from the U.S. Air Force. Additionally, a National Board Certified math teacher was a semifinalist for the District's Teacher of the Year.

Our instructional program was greatly enhanced through the full implementation of the key practices of High Schools That Work (HSTW). Members of the HSTW Technical Assistance Team visited the school in March and examined all facets of the school. The team left the administration, faculty and staff and school community with a preliminary report highlighting the strengths of the school and challenges that it faces. The results of the final report will be used to continue the school's emphasis on high academic expectations for all students.

Our tests scores indicated a need to continue addressing students' weaknesses in the area of math. This year, our efforts will continue to focus on problem areas for students using the data from the State Department of Education's Exit Exam results. All ninth- and tenth-grade students take math and English all year long, and there is a strong computer lab component including both math and reading classes for those students. Further, plans are in place to foster students' study/test-taking skills in math and reading, as well as staff development to address math and reading skills throughout all subject areas.

Our desire to help a larger percentage of students to score higher on state standardized tests rests on several factors. First, while parental involvement has increased during the past year, there is still a great need for more parents to be involved at the high-school level. Student apathy is another area that the administration and faculty note that needs to be addressed, as many students seem comfortable with minimal performance. Finally, we plan to address the need for consistency of instructional practices among all faculty members.

Dr. MiUndrae Prince, Principal
